Welcome

We are delighted to announce that the 20th International Vasculitis and ANCA Workshop will take place in the wonderful city of DUBLIN, Ireland in 2021.

This is an exciting time in the field of vasculitis. Advances in basic science, translational research and clinical trials are yielding new diagnostic and therapeutic approaches in this complex and challenging rare disease group. The conference theme will be "Autoimmunity, Autoinflammation and Immunodeficiency in Vasculitis" and the organising committee is working on a stimulating programme focused on basic science and clinical research, communicating new knowledge, and advocating for the highest quality care for patients with vasculitis. With inspiring keynote speakers and an enjoyable social program, we are sure that Vasculitis 2021 will be a tremendous success.

Please register your interest on www.vasculitis-2021.org to receive updates and further information.

We look forward to welcoming you to Dublin in 2021
